FRENCH SUMMER SCHOOL

French as a Foreign Language (FLE) Summer School is co-organized by Toulouse INP and INSA Toulouse.

The three-week program of the FLE Summer School boasts a warm and pleasant environment designed to facilitate your cultural and linguistic adaptation and ease your path into engineering and science studies in France

INFORMATION

When?

from August 18th to September 5th

Application deadline

June 30, 2025

Where?

INP-N7 2 Rue Charles Camichel,
31000 Toulouse

Admission conditions

- Open to engineering students and PhD students
- Applicants must be at least 18 years of age

Contact

summer-school-administration@enseeiht.fr
summer-school@insa-toulouse.fr

Highlights

- Improve your proficiency in French (or start from scratch!) according to your level
- Develop authentic skills in scientific French, working on scientific projects alongside other students
- Gain valuable international experience and unique intercultural skills

PROGRAM

INTENSIVE FRENCH COURSE

60 hours of FLE lessons over three weeks (20 hours per week)

All lessons are taught by certified French teachers. Following a placement test conducted prior to arrival, classes are organized in **small groups** by proficiency level according to the **CEFR** (Common European Framework of Reference for Languages). Students can validate one **ECTS credit** per week.

Cultural activities:

- » Cultural outings to discover Toulouse & the Occitanie region
- » Visits to the Aeroscopia Museum and Airbus site
- » Sporting and cultural activities

Rest assured, local students will support and assist you throughout your stay!

WELCOME TO TOULOUSE, THE PINK CITY!

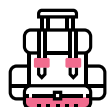

Toulouse is a dynamic, attractive and cosmopolitan city, boasting numerous prestigious international schools and hosting more than 120,000 students.

The Pink City also enjoys a strategic geographical location in the south of France, close to the sea, the mountains, and Spain – no wonder it was named both France's most attractive metropolis (Arthur Loyd barometer) and the world's top urban destination (Lonely Planet) in 2025!

TOUL'BOX

To facilitate the administrative procedures related to your arrival in Toulouse and its region, the University of Toulouse offers you service packages adapted to your needs: the [Toul'Box](#).

REGISTRATION & PAYMENT

If you would like to participate in the Summer School, please follow the application steps below:

- 1- Click on the registration button and complete the application procedure on the eCandidat platform*
- 2- Once your online application has been validated and payment has been received, your application is finalized
- 3- Be on the lookout for a confirmation email; you will receive your Admission Letter
- 4- The Summer School coordinator will contact you to provide further information relating to the course and your arrival

* Should you encounter any problem with the platform, please contact: summer-school@insa-toulouse.fr

Regular fees: €300 / week

Reduced fees: €150 / week for students from an INP or INSA Toulouse partner institution

Payment is made through the **eCandidat platform**

You must register for a **minimum of two weeks**

REGISTRATION

The registration fee covers tuition fees and cultural visits; students from INSA Toulouse – INP partner institutions also benefit from the Toul'Box package (pickup from the train station or airport, assistance with administrative formalities, and help in finding accommodation)

Please note that this fee does not include travel, accommodation, meals and other living expenses.

TESTIMONIALS

I really liked, enjoyed and recommend the Summer School French course at INSA. It was a great experience to learn, improve and train my French before the classes at INSA. We had talking, reading and a little of grammar with an amazing teacher that talked slowly, clearly and answered all the questions. I also really enjoyed the trips that were proposed, where we have visited Toulouse and some cities near-by, where we have discovered more about the French culture and history. One of my favorite visit was in the Airbus Factory, where we saw the assembly of the airplane parts right next to us. These weeks before the courses helped me with the adaptation and life in campus. For me, the best part is that lot of the

people that I've met in this course are now my friend on campus. Definitely one of the best things to do before the beginning of the engineering classes !

Joao Gabriel, Brazil, Summer School 2024

Being in the summer school was very helpful for me as I met people in the same situation as me: foreigners arriving for the first time in France trying to make the best out of this adventure. Not only did I make friends from other countries, but I also learnt more about the French culture and French school life. I was able to practice my French with natives and get involved in activities that pushed out of my comfort zone.

Claudia, Mexico, Summer School 2022

Hello, my name is Alejandro Peña, and I am currently pursuing my studies at INP for the period 2024–2026. I want to invite you to experience the Summer School program, which I highly recommend for three key reasons. First, it helped me feel more prepared, not only for starting classes but also for adapting to everyday life. Second, the program was incredibly enriching because of the amazing places we visited while exploring the surroundings of Toulouse. Finally, and perhaps most importantly, it's where I made some of the best friendships that continue to be a significant part of my life here in France.

David Alejandro, Colombia, Summer School 2024

It was an incredible experience, I would say it was essential for my arrival in France. In addition to the excellent teachers, I made friends with several people from different cultures who are there with the same purpose.

Jackson, Brazil, Summer School 2024

For me, French Summer School was a very important event as soon as I arrived in France. Attending it really developed my communication skills and helped me break the language barrier and fear of speaking French. The lessons were very interactive and group-based, focusing on practising communication skills. The trips organised as part of the French Summer School complemented the learning nicely by using French in everyday life and visiting many beautiful places around Toulouse.

Maciej, Poland, Summer School 2024
